

2006 KeefeTeam Friday Night Breakaway #4
6/23/06

On a beautiful summer evening about 30 riders came down to the Hellyer Park Velodrome to give our new racing format a go. This is a very busy race weekend with the Pescadero Road Race on Saturday, and the very popular Burlingame Criterium on Sunday, so we were happy with the number of trackies that showed.

Trying to work some bugs out of the program, we changed this week to a later registration closing and start time, a slightly shorter race program, and a later track closing to try and make the evening a bit less hectic. From all appearances it worked. With the exception of a very fragile PA system that took forever to get working (thanks to Ruggy Holloway for your help), the evening went very well. Good racing, good prizes, and a warm June evening at the park. Doesn't really get any better than that.

From this week forward, the race program consists of three omniums of three races each, plus the Sprints. The usual categories race for the omnium prizes - Pro/1/2, Cat3, and Masters 40+/Women/Jr, all Cat 3 or above. We're now finishing with a final, Open Race, separate from the omniums that has it's own prize list.
