

2006 KeefeTeam Friday Night Breakaway #6  
7/07/2006

It was over 90 degrees for the first part of racing this evening. As expected we had a light turn-out of racers, a few more people in the stands and a good deal of great racing in spite of having no PA system for the spectators.

The master's women/juniors field did not have enough folks to run a race so they jumped into the Pro1/2 and Category 3's and the racing went quickly and smoothly.

Please note updates. Next week YOU MUST HAVE TWO RACE NUMBERS ON TO WIN. Any race that you do not have two numbers your results will not count.
